

CONNECTING & INSULATION ELEMENTS

UNIVERSAL HOSE CLAMP

Hose Clamp with Worm-Gear Drive

Material

- Clamp band: stainless steel
- Screw casing: stainless steel

Applications

- Hose clamp for securing lightweight hoses to connectors on mobile and stationary units

Properties

- Rust-resistant
- Robust

Construction

- One-piece hose band clamp with a hexagon head screw, recessed

Standard Production

- Diameter: 1.5" to 20"

Available on Request

- Other clamping ranges

Clamping Range Dia (in.)	Product Code
1.5" to 20"	620-025-100 to 620-500-100

The clamp with worm-gear drive is suitable for the mounting of lightweight spiral hose. For the mounting of heavyweight hoses, we recommend the heavy-duty hose clamp with bolts.
