

SUCTION AND BLOWER HOSE FOR AIR-CONDITIONING/VENTILATION

Master-Clip PE

Material

Hose wall: double-sided PE-coated PE fabric
Spiral: galvanized steel

Applications

- Air-conditioning/ventilation systems
- Extractor units
- Air supply and extraction
- Vacuum devices for asbestos removal
- Suction plants
- Low pressure applications

Properties

- Good resistance to mechanical damage
- Increased vacuum characteristics
- Extra strength
- Extremely lightweight
- Highly flexible
- Extreme compressibility 1:6
- Small bend radius
- Higher temperature resistance than PVC-hoses
- Environmentally friendly alternative to PVC
- Halogen/plasticizer-free
- External steel helix protects against abrasion

Construction

1. External helix
2. Hose wall: double-sided PE-coated PE fabric

Temperature Range

- -40°F to +185°F
- Intermittent to +260°F

Chem. Resistance

See resistance table

Master-Clip PE

*Referring to the inner side of the elbow of hose.

The above mentioned data refers to an average and ambient temperature of 68o F. Subject to technical changes and color variations. Please refer to technical data sheet when selecting hose.

Standard Production

- Diameter: 2.5" to 36"
- Color: transparent
- Standard lengths: 25'

Available on Request

- Other colors
- Special lengths
- Custom design with other pitches and helix sizes
- Stainless steel external helix
- Special diameters metric

Installation and connection possibilities

Clip-Grip hose clamp, screwable

Hose connector

Hose reducer, symmetrical
