

SUCTION AND VENTILATING HOSE FOR CORROSIVE MEDIA UP TO +600°F

Master-Clip PTFE-MP

Material

- Hose wall: laminated PTFE
- External helix: galvanized steel

Applications

- Pharmaceutical industry
- Chemical plants
- Paint, wood and paper industries
- Extraction of corrosive media
- Paint mist exhaustion
- Solvent extraction
- Low pressure applications

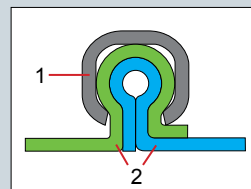

Properties

- Excellent chemical resistance
- PTFE: harmless to health
- Excellent weather resistance
- High temperature and cold resistant
- Highly flexible
- Extreme compressibility 1:6
- Small bend radius
- Hose wall with non-stick surface
- Excellent flex fatigue resistance
- Good tear strength
- Optimum flow characteristics
- External steel helix protects against abrasion
- Special clamping method guarantees high tensile strength between hose material and external helix

Construction

1. External helix
2. Hose wall: laminated PTFE

Temperature Range

- -100°F up to +600°F

Chem. Resistance

See resistance table

Master-Clip PTFE-MP

Dia (in.)	Positive (in. w.c.)	Negative (in. w.c.)	*Bending radius (in.)	Weight (lbs./ft.)	Product Code

12.00	21	4	8.40	1.4024	263-300-012

*Referring to the inner side of the elbow of hose.

The above mentioned data refers to an average and ambient temperature of 68° F. Subject to technical changes and color variations. Please refer to technical data sheet when selecting hose.

Standard Production

- Diameter: 2.5" to 16"
- Color: natural
- Standard lengths: 25'

Available on Request

- Special lengths
- External helix also in stainless steel
- Special diameters metric

Installation and connection possibilities

Clip-Grip special hose clamp

Hose connector

Hose reducer, symmetrical
